## Welcome to Cavalier Attitude!

Hello and welcome to my zine: **Cavalier Attitude**. As the masthead says, this zine focuses on the *Old School Revival* (OSR) in fantasy role-playing, including OSRIC, BECMI, 1E and 2E gaming.

In this sixth issue, I will be discussing a concept which always creates a great deal of discussion, player character alignment changes and how to handle them.

Inside you will also find a new feature I'm introducing, called the **Bard's Corner**, which will showcase fantasy fiction with an RPG theme, by myself and others. The first story is "**Death Comes to Blackrock.**"

I also present another installment of my feature on new wondrous magical items of my own creation which you can introduce into your campaign.

This issue also contains our standard columns: a social media roundup; an Old School art showcase; a special pre-generated player character; and information on my recently published books: **SCA II.3 Cavalier Attitudes**, **SO9 Down the Wishing Well**, and **SO10 The Pumpkin Man**.

Lastly, once again we feature an **exclusive one page OSR adventure!**
